

Course Description

PER-340 Active Threat Integrated Response

Description:

The Active Threat Integrated Response Course (ATIRC) is a 24-hour performance level direct delivery course designed to improve integration between law enforcement, fire, and emergency medical services (EMS) in active shooter events. The course provides law enforcement officers with key medical skills based on tactical emergency casualty care (TECC) guidelines which can be used at the point of injury (POI) to increase survivability of victims. The course also provides a model framework for law enforcement, fire, and EMS to integrate responses during an active shooter event through the rescue task force concept using the Active Shooter Incident Management Checklist.

Course Objectives:

- Recognize the course goal, enabling objectives, course schedule, and course performance requirements.
- Use the Active Shooter Incident Management Checklist in managing an integrated response to active shooter events.
- Be familiar with staging and how to function as a Staging Area Manager in an active threat integrated response.
- Identify appropriate life saving techniques that can be used in a direct threat environment.
- Identify appropriate life-saving techniques that can be used in an indirect threat environment.
- Discuss the initial response priorities to an active shooter event and tactical considerations for a swift response by law enforcement, fire and emergency medical services (EMS).
- Discuss and demonstrate advanced medical skills based on tactical emergency casualty care (TECC) and National Incident Management System (NIMS) guidelines.
- Respond to a simulated active shooter incident and successfully integrate the response between law enforcement, fire, and emergency medical services (EMS) to quickly mitigate the threat while increasing the survivability of injured persons.
- Complete a comprehensive written post-test and course evaluation.
